**First Name:** sample

Last Name: Not filled

Date of birth: Not filled

Experience: Not filled

Country: Not filled

Performance Summary

General Aptitude is defined as potential of the candidate and the ability to grasp new concepts which are crucial to his/ her role as an employee in the organization. It is the innate, learned or acquired ability of an individual to perform certain tasks. It helps assess Individual's capacity for learning in general regardless of any specific skill.

	Very Low	Low	Moderate	High	Very High
Cognitive Abilities		37 / 36			
	16	33	68	84	100

**Values shown in above chart are percentages**

🟥 Very Low   🟥 Low   🟦 Moderate   🟩 High   🟩 Very High   ⬜ Benchmark/Group Average

🔷 Recommendation

Recommended

Reasoning Ability

The ability of an individual to analyse and perceive the given information from different perspectives

Values shown in above chart are percentages

Legend: Very Low | Low | Moderate | High | Very High | Benchmark/Group Average

Reasoning: Very Low

The candidate may not have the ability to use steady, logical and consistent reasoning to arrive at a conclusion. He/she may not be able to logically structure problems, situations and facts in order to conceive a solution. He/she may not have a strong thinking and understanding process.

Critical Thinking: Moderate

The candidate is moderately likely to have the ability to think out-of-the-box to solve various problems. He/she may have moderate skills to assess the effectiveness of the opposing argument to test the validity of the proposition.
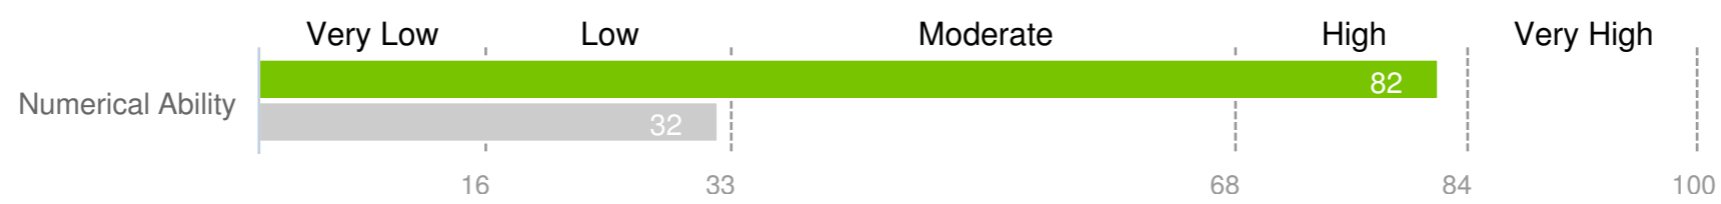

Abstract Reasoning: Moderate

The candidate is moderately likely to have the ability to quickly identify patterns and the logical rule underlying those patterns to arrive at solutions. He/she may be able to gather work related information quickly, from various sources and apply it in innovative ways to solve problems. He/she may have moderate lateral thinking abilities and fluid intelligence. He/ she may be moderately creative in thinking and in integrating data logically to arrive at solutions.

Attention to Detail: High

The candidate is likely to notice everything that might be of importance, at any point of time. He/she is likely to be able to capture every minute detail and present the work in a clear, complete, precise and easy to understand language. The candidate may be attentive, focused and good at giving excellent results, maintaining excellent quality.

Numerical Ability

The ability to perceive and process numbers and related symbols to perform basic arithmetic operations.

	Very Low	Low	Moderate	High	Very High
Numerical Ability				82	
		32			

| 16 | 33 | 68 | 84 | 100 |

**Values shown in above chart are percentages**

■ Very Low ■ Low ■ Moderate ■ High ■ Very High ■ Benchmark/Group Average

Numerical Ability: High

The candidate is likely to perceive and process numbers and related symbols to perform basic arithmetic operations and perform estimates. He/she may have high level of speed in making analysis or assessments based on given information and a high level of concentration in solving problems.

Data Analysis

The ability to structure observations that are obtained by different data sources.

	Very Low	Low	Moderate	High	Very High
Data Analysis			57		
	21				

| 16 | 33 | 68 | 84 | 100 |

**Values shown in above chart are percentages**

■ Very Low ■ Low ■ Moderate ■ High ■ Very High ■ Benchmark/Group Average

Data Analysis: Moderate

The candidate is moderately likely to structure and analyse observations that are obtained by different data sources. He/she may be moderate in inspection, selection, transformation and remodelling of data in order to derive a conclusion for any particular situation. He/she may have the ability to break down a big problem into smaller parts for better understanding of the problem, in order to solve the problem efficiently.

Verbal Ability

The ability to understand word meanings, word relationships and also interpret detailed information.

	Very Low	Low	Moderate	High	Very High
Verbal Ability	14				
		41			

| 16 | 33 | 68 | 84 | 100 |

Values shown in above chart are percentages

■ Very Low ■ Low ■ Moderate ■ High ■ Very High ■ Benchmark/Group Average

Verbal Ability: Very Low

The candidate is unlikely to have a good vocabulary. He/she may be very poor at proper usage of grammar and punctuation. He/she may face problems in understanding word meanings, word relationships and also in interpreting detailed information.

Test Log

---

01 Sep,2017

03:15 pm	Started the test with Numerical Ability & Data Analysis
03:20 pm	Went to Reasoning Ability of the test
03:22 pm	Went to Verbal Ability of the test
03:23 pm	Finished the test
